

Rupesh – Senior DevOps Engineer

📞: +91 9871414317 | ✉: rupeshkushmalu@gmail.com | 📍: Noida, UP | in: rupesh-kumar0 | rupeshkush.com

4+ years experienced, passionate and seasoned DevOps Engineer, dedicated to driving efficiency and innovation in software development. Demonstrated expertise in implementing DevOps methodologies, orchestrating robust solutions, and optimizing workflows. Proficient in cloud technologies such as Azure and AWS. Skilled in architecting secure and scalable infrastructures to meet business objectives. Committed to collaboration, continuous improvement, and knowledge sharing to enhance team performance and project integrity. Ready to leverage experience and skills to drive transformative initiatives and exceed organizational goals.

KEY SKILLS: DevOps | DevSecOps | GitOps | Automation | Azure DevOps | GitHub Administration | Containerization | Scrum | Agile Methodologies | Troubleshooting | Configuration Management | Vulnerability Assessment | Azure Reliability Patterns | Azure Security Patterns | Team Lead

TOOLS & TECHNOLOGIES: Cloud Platforms: Azure, AWS | DevOps Platform: Azure DevOps, GitHub Actions, Jenkins | Scripting Languages: Shell, Python, Go (Golang) | Container Platform: Docker, ACR | Version Control: Git, GitHub | Orchestration Tools: Kubernetes, Azure AKS, AWS EKS | Monitoring: Grafana, Prometheus, Azure Monitors | Infrastructure as Code: Bicep, Terraform, ARM Templates, Ansible | Azure: Azure App Service, Container Apps, Front Door, Key Vault, Function App, Logic Apps.

PROFESSIONAL EXPERIENCE

Senior DevOps Engineer | Optimus Information Noida, India | Dec '22 – Present

Roles and Responsibilities:

- As part of Microsoft’s partner ecosystem, worked exclusively on **Azure Cloud** for the past two years—leading initiatives around **Azure DevOps**, CI/CD pipeline implementation, infrastructure automation, and release management.
- Architected scalable Azure infrastructure using Bicep, Terraform, and ARM templates for rapid provisioning.
- Automated deployments using GitHub Actions, Jenkins, and Azure DevOps, enhancing agility and collaboration.
- Configured VNets, IAM, RBAC, and Microsoft Defender for Cloud to ensure security and compliance.
- Developed blue-green deployments with Kubernetes & Azure Front Door, minimizing downtime.
- Integrated SonarQube, Trivy, and OWASP into CI/CD pipelines for improved security and code quality.
- Achieved Advanced Specialization in DevOps using GitHub Actions.
- Ensured high availability with Active Geo-Replication and Front Door configurations.
- Optimized cloud costs by 40% through Reserved Instances and Savings Plans.
- Implemented Azure WAF with custom rules, protecting against evolving threats.
- Designed IAM and RBAC strategies, enforcing least-privilege access.
- Hardened security for client-facing portals, enhancing Azure Web Application Firewall (AWAF) scores.
- Led security and automation training sessions, upskilling team members.
- Created pre- and post-deployment documentation to streamline DevOps workflows.
- Standardized DevOps best practices within the organization for consistency and efficiency.
- Led and mentored a team, ensuring seamless collaboration, task delegation, and successful project delivery.

Cloud Administrator | Wipro LTD Gurugram, India | Feb'21 – Nov'22

- Supported Azure and AWS infrastructure operations, automation, and configuration tasks.
- Managed RBAC, IAM policies, monitoring tools, and ARM templates.
- Assisted in early-stage CI/CD pipeline setup and server hardening activities.

INTERESTS AND ACHIEVEMENTS

- 4-time Employee of the Month awardee for outstanding performance and contributions.
- Awarded as the Best Newcomer in the organization for demonstrating exceptional learning and impact.
- Winner of the Company Badminton Tournament.
- Passionate about Yoga and Aerobics, promoting a healthy and disciplined lifestyle.

CERTIFICATES

- [AZ-900: Microsoft Azure Fundamentals](#)
- [AZ-104: Azure Administrator Associate](#)
- [AZ-400: Implementing Microsoft DevOps Solutions](#)
- [GitHub Administration Certification](#)
- [Certified Kubernetes Administrator \(CKA\)](#)

EDUCATION

- B. Tech – Computer Science Engineering** SRM University, Sonipat, Haryana | 2016-2020
